

Research Conference

<b>Job postings, announcements, etc.</b>		1
Increasing balanced fluid resuscitation for sepsis patients in a tertiary care pediatric emergency department	Grace Arends	2
Improving Antibiotic Management for Patients Treated and Released from the Pediatric Emergency Department with Presumed Diagnosis of Urinary Tract Infection Following Urine Culture Result Review	Catherine Hahn	3
Decreasing time to antibiotics in febrile oncology patients with central line in the pediatric emergency department; A Quality Improvement initiative	Abbigayle Carlson	4
Kawasaki Protocols: A Pathway to Consistent and High Value Care	Elizabeth Nguyen	5
Introduction of a Checklist to Standardize Pre-Procedural Sedation Timeout	Sujung Kim	6
Reducing Erroneous Penicillin Allergy Labels (REPeAL) in Pediatric Urgent Care Clinics	Jennifer McKinsey	7
Decreasing Medication Reconciliation Errors in a Large Tertiary Care Pediatric Intensive Care Unit (PICU)	Timothy Brandt	8
Implementation of an EHR-Based PICU Rounding Checklist	Laura Amar-Dolan	9
Increasing Human Milk use in the Neonatal Intensive Care Unit	Jennifer Fundora	10
Less Invasive Surfactant Administration (LISA) in Preterm Infants: A quality improvement initiative in 2 large academic neonatal units.	Kartikeya Makker	11
Decreasing Unnecessary Formula Use in Late Preterm and Early Term Breastfed Infants through a Donor Human Milk Voucher Program	Madeline Keiren	12
Equitable reduction of unplanned extubation a QI project: Overcoming racial language and socioeconomic disparity	Gayathri Sreenivasan	13
<b>Poster assignments, announcements</b>		14
Incorporating Scheduled Rounding Times to Improve Rates of Family Centered Rounds Participation for Caregivers Who Prefer a Language Other than English	Josh Kurtz	15
Improving the Delivery of Evidence-Based Inpatient Asthma Care	Eleanor Young	16
Improving Language Concordance on Discharge Instructions for Patients and Caregivers with Spanish Language Preference	Morgan Viviano	17
Improving Mental Health Processes Workflows and Responses Quality Collaborative	Katharine Clouser	18
Use Your HEADSS: Strategically implementing interventions to meet the health care needs of hospitalized adolescents by utilizing HEADSS assessments	Cory Alexieff	19
Reducing Disparities in Automated Insulin Delivery System Use in Pediatric Patients with Type 1 Diabetes	Elizabeth Mann	20

Increasing Referrals to Community Health and Social Workers in a Pediatric Primary Care Clinic	Ashley Gibson	21
Improving caregiver-reported infant racial demographics across a 10-unit regional neonatal network: the first step towards ensuring equitable outcomes	Stephanie Napolitano	22
Improving Rates of Pediatric Lead Screening in an Urban Med-Peds Faculty/Resident Clinic	Alex Schoenberger	23
Increasing Lead Testing Rates: Parents and Primary Care Pediatricians' Perspectives.	Olushola Fapo	24
Implementing Universal Lead Testing in a Large Primary Care Network	Elena Huang	25
A Quality Project to Improve Management of Patients with Lead Poisoning in an Urban Pediatric Primary Care Practice	Rebekah Prasad	26
Improving Care to Infants Born with Congenital Heart Disease Through Implementation of Prenatal Risk Stratification System: A Quality Improvement Initiative	Elizabeth Masotti	27
Brightening Babies' Futures: Aligning the Management of Neonatal Hyperbilirubinemia with the 2022 American Academy of Pediatrics Guidelines	Taylor Allen	28
Enhancing early detection of cerebral palsy: A single center quality improvement initiative to improve early neonatal follow-up in a high-risk delivery center.	Sara Neches	29
"Nourish to Flourish" - An Interdisciplinary Quality Improvement Initiative to Improve Pediatric Malnutrition Identification Through Nutritional Screening	Genevieve de Caen	30
Improving Antiviral Use in Children Hospitalized with Influenza	Sabrina Carro	31
Quality improvement strategies of interventions to improve the management of pain associated with punctures in hospitalized pediatric patients. Systematic review.	Maria Jose Conejero	32
Development and implementation of a bronchiolitis conditional discharge workflow: A pilot study	Michelle Noelck	33
Automating Patient Isolation and De-Isolation Using a Multidisciplinary Approach	Michael Platt	34
Implementing and Sustaining Critical Care Billing on a Pediatric Hospital Medicine Service	Suzanne Ramazani	35
Improving Critical Care Billing in a Hospital Medicine Division	Bridget Allard	36
March Metric Madness: Innovative Quality Framework to Achieve - and Sustain - Rapid Results	Dane Snyder	37
From Reduction to Release: Optimizing Sedation to Discharge Time for Pediatric Orthopedic Patients in the PED	Jessica Hayes	38
<b>Poster assignments, announcements</b>		39
Multidisciplinary Timely Debrief Sessions After Cardiac Arrests and Endotracheal Intubations in the Pediatric Emergency Department	Jonathan Hermel	40
Increasing Resident Involvement in Medical Resuscitation in the Pediatric Emergency Department	Theresa Barrett	41
Integrating Team Member Wellbeing into Improvement Work	Julia Harris	42
Enhancing Faculty Knowledge & Engagement via a Quality Safety & Operational Excellence Improvement Program	Julia Harris	43

Improving Adherence to Developmental and Social Determinants of Health Screening in a Pediatric Primary Care Setting	Chris Tempesta	44
Implementing Nirsevimab Immunization to Reduce Respiratory Syncytial Virus-Associated Illness in Pediatric Populations	Kevin Chen	45
Ongoing Quality Improvement for Asthma in Primary Care	Kathryn Murray	46
Enhancing Adolescent HIV Screening: A Quality Improvement Approach with Point-of-Care Testing	Alex Dietrich	47
Optimizing and Sustaining a Standardized Approach to Adolescent Depression Screening	Vallent Lee	48
High Frequency Hearing Screening for Adolescents at NCMG General Pediatrics Clinics	Matthew Kinney	49
Increasing Pediatric Type 2 Diabetes Screening in Primary Care Through Quality Improvement: 4 Years of Progress	Jose Morales Moreno	50
